*Fog occurs along the Namibian coastline on a fairly regular basis, which makes Swakopmund inaccessible. As the norm, Wilderness Air Namibia will use Arandis for refuelling on the circuit, instead of Swakopmund. Located inland to the north-east, and not exposed to the fog, Arandis is more reliable. If weather conditions are favourable, and guests need to be dropped off or picked up from Swakopmund because of arrangements, then the aircraft will land there, and refuel accordingly. However, if there is fog on that particular day, then the aircraft will fly to Arandis and guests will be transferred to/from Swakopmund by road.

Geluk and Doro Nawas airstrips can be used to connect with 3rd party lodges mentioned but only if flown by Wilderness Air.

It is a condition of travel with Wilderness that guests have travel insurance. Should they not have insurance cover, they will be personally responsible for any costs incurred as a result of a medical emergency or evacuation, as well as any other insurance claim situation such as loss of luggage.

Flying Circuit

1. The Wilderness Air Namibia circuit operates daily per the flying schedule with the main hub being Doro Nawas.
2. **Please note that some flights may have 2 or 3 stops, depending on the schedule on the day and arrival times may differ from the published schedule.**
3. Flights depart from both Eros and Windhoek/Hosea Kutako International Airport. Where relevant, road transfers between airport and hotel and vice versa, must be booked and charged for.
4. Different aircraft are used on each of the routes so guests will be required to change aircraft as relevant i.e. when flying from Sossusvlei via Doro Nawas to Hoanib.
5. Any guest on an air transfer through Swakopmund, who wants to do an activity, will either need to overnight in Swakopmund or book a private charter for their onward travel.
6. All sectors or routes not featured in the above circuit must be booked on a sole use charter basis. Please contact your Travel Designer for more information.
7. Guests staying at Wilderness Damaraland Camp, will be transferred by to camp from Doro Nawas airstrip. This scenic transfer may take approximately 45 minutes.

Excess Luggage

Luggage can be stored either at our Windhoek offices or at the Wilderness Airport lounge free of charge.

WEIGHT ALLOWANCE AND LUGGAGE (NB - the type of bag allowed on Wilderness Air in Botswana, Zambia and Zimbabwe is slightly different - they can accommodate a soft bag with a rigid structure at the base)

These important guidelines below must please be noted for all air transfers with Wilderness Air in Namibia.

1. As safety and a quality air service is a strict focus for us, it is vital that we manage all weight and balance calculations ahead of time. Prior to travel, we therefore require the weights of all guests that weigh more than 100 kg (220 lb). Please note this is purely for planning purposes and ensuring our aircrafts calculations are within the legal limitations.
2. Luggage, including both check-in and carry-on (handbag, backpack, camera equipment, sleep apnoea machine, etc.), is restricted to a maximum of 20 kg (44 lb) per person travelling on seat rates.
3. **Only soft duffel/tog type bags will be accepted - NO frames or rigid structures may be transported as they physically cannot fit into the aircraft.** Wheels on a bag are only permissible if they are not part of a solid frame or rigid structure. This also applies to camera bags.
4. The maximum dimensions of ALL bags which can be accommodated are as follows: 30 cm (11.8 inches) wide x 35 cm (13.8 inches) high and 70 cm (27.5 inches) long.
5. Note that weight allowances on non-Wilderness Air aircraft may vary. Should guests be flying a combination of Wilderness Air and non-Wilderness Air flights, guests should adhere to the most restrictive luggage allowance to avoid the possibility of re-packing/storing luggage.
6. Should bag dimensions not conform to the above, guests will be provided with soft bags by our staff to re-pack at our lounge at Hosea Kutako International Airport (Windhoek).
7. Luggage may be stored at either our airport lounge or our offices in town.

EXCESS BAGGAGE TO ACCOMPANY GUESTS

- **One unit of excess baggage allows for an additional 20 kg (44 lb), no longer 75 kg (165 lb).**
- This additional weight allowance is booked as an extra line item - a seat on the aircraft no longer needs to be booked.
- The extra baggage must conform to the standard dimensions as detailed in the Namibia weight allowance section above.
- We highly recommend that excess baggage is pre-booked. Flight scheduling is done in advance, and if Operations do not know about the additional weight allowance required, there will be delays while the necessary arrangements are made re: aircraft and collecting payment.
- **This is particularly relevant in Namibia** where the aircraft used/distances travelled are very specific when it comes to weight. **The only way to guarantee an additional 20 kg of weight allowance per person in Namibia is to pre-book and pay**, so that aircraft may be scheduled correctly. For example, if guests arrive with 4 extra pieces of additional weight but they have been scheduled on a Cessna 210 aircraft (which only carries 4 passengers with the standard permissible luggage weight of 20 kg), then guests will either have to leave luggage behind or incur sole use charter costs for a second aircraft if the luggage is to accompany them.
- **The cost of this additional weight allowance is NAD 2800.00 - charged per 20 kg, per flight sector - IF PRE-BOOKED .**
- **Should guests arrive with additional weight allowance in Namibia without pre-booking, they will be charged NAD2 500.00 per sector for a maximum of 10 kg per party/group/couple (instead of the 20k g per person in other regions).** The remaining excess luggage will have to be stored in Windhoek until the guests return.

It is a condition of travel with Wilderness that guests have travel insurance. Should they not have insurance cover, they will be personally responsible for any costs incurred as a result of a medical emergency or evacuation, as well as any other insurance claim situation such as loss of luggage.

- o Doro Nawas - Swakopmund/Arandis
- o Swakopmund - Geluk

*Fog occurs along the Namibian coastline on a fairly regular basis, which makes Swakopmund inaccessible. As the norm, Wilderness Air Namibia will use Arandis for refuelling on the circuit, instead of Swakopmund. Located inland to the north-east, and not exposed to the fog, Arandis is more reliable. If weather conditions are favourable, and guests need to be dropped off or picked up from Swakopmund because of arrangements, then the aircraft will land there, and refuel accordingly. However, if there is fog on that particular day, then the aircraft will fly to Arandis and guests will be transferred to/from Swakopmund by road.
