ABOUT US

Boshoff Family Wines is a family owned wine estate, situated in the Otavi Valley in northern Namibia. We aim to cultivate our vineyard according to organic principles and produce natural wines that truly reflect the true terroir that the vines are growing in.

We focus on cultivating grape cultivars that are suited for a hot and dry climate that is typical in northern Namibia.

OUR HISTORY

The vineyard was established by Michiel (Gilmar) Boshoff in 2014 and the first harvest and bottling produce happened in 2018 whereby we bottled 900 bottles in total. We have tremendously and currently bottle approximately 7000 bottles per harvest from our 4,8 hectare vineyard. We plant a variety of 12 different cultivars, including table grapes.

WINES PRODUCED

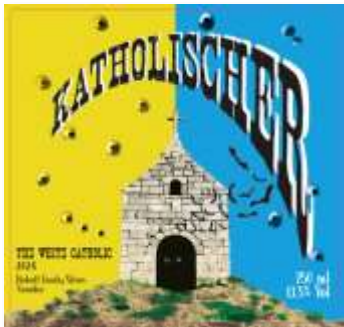

The Otavi Valley creates a unique microclimate in the dry and arid region of north Namibia to exercise the craft of wine making.

The warm sunny terroir creates the perfect conditions to produce two ranges with an absolute taste sensation that has never been experienced in Namibia before.

Herewith a short introduction to each.

THE KATHOLISCHER

Introducing our exciting Katolischer range, paying tribute to the German Catholic priest who established the foundation for the small Namibian Wine Industry in the late 1800s to the 19th century. We celebrate his pioneering spirit in creating the first Namibian Wine & Schnapps over 100 years ago. Our inaugural Katolischer was bottled in 2018 and features 5 unique varieties. Join us in raising a glass to this trailblazing priest and his legacy in Namibian winemaking!

BOSHOFF FAMILY WINES

We are thrilled to introduce our second range of wines from our vineyard, featuring a variety of single grape cultivars. These premium wines are produced in limited quantities, ranging from 300 to 600 bottles. First bottled in 2020, this collection boasts three exquisite varieties. Cheers to the exceptional quality and unique flavors of our latest offerings!
